Interior & outdoor lighting

COMPANY AT A GLANCE

Registered name	Taj Al Najah Trading LLC
Commercial registration	1677787 / Limited Liability Company
Registered location	Al Wutayyah, Bousher, Muscat, Oman

OUR DIRECTION

Purpose with practical priorities.

OUR VISION

To become a trusted electrical trading partner for contractors and project teams in Oman.

OUR MISSION

To help customers identify suitable electrical products through clear specifications, responsive enquiry handling and transparent quotations.

01

Clarity

Understand the need and confirm the product reference.

02

Care

Review ratings, installation conditions and compatibility.

03

Accountability

Define scope, availability and commercial terms.

OUR OPERATING PRINCIPLES

WHERE PRODUCTS FIT

Built around your application.

Buildings & fit-out

Wiring devices, cable routes and interior lighting.

MEP project teams

Enclosures, circuit devices and installation materials.

Industrial & workshop

Industrial connections and local equipment isolation.

Maintenance teams

Replacement lighting and electrical accessories.

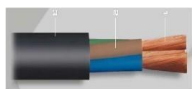

START WITH THE APPLICATION

Share the duty, environment and project specification with your material list.

Named brands and exact specifications are confirmed during quotation.

PRODUCT PORTFOLIO / 01

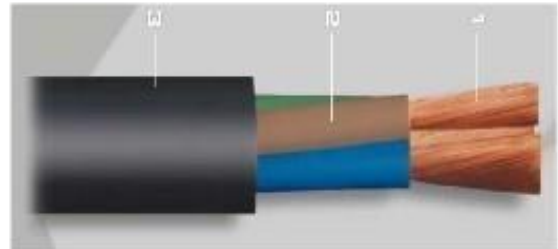

Wires & cable systems

Electrical connections for building, equipment and project installations.

Single-core copper wire

Building wiring and conductor connections.

Multicore cable

Multiple insulated cores in an outer sheath.

Flexible cable range

Equipment and control cable enquiries.

Fire-performance cable

Match the project fire-performance specification.

ENQUIRY ESSENTIALS

Conductor size, number of cores, voltage, insulation, armour, fire rating and length.

PRODUCT PORTFOLIO / 02

Connect. Joint. Identify.

Cable entries, terminations and insulation accessories.

Brass cable glands

Cable entry and termination hardware.

Compression cable lugs

Conductor connection accessories.

Resin cable joint kit

Select for cable type and installation.

Electrical insulation tape

Joint insulation and colour identification.

ALSO WITHIN THE RANGE

Terminal strips, ferrules, heat-shrink, cable ties and markers. Confirm sizes and quantities.

PRODUCT PORTFOLIO / 03

Routes, boxes & devices

A coordinated installation begins with the right supporting accessories.

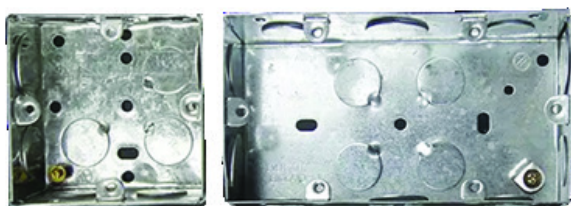

Cable tray & ladder

Cable support and routing systems.

Metal conduit & fittings

Protected cable routes and terminations.

Metal back boxes

Flush mounting for wiring accessories.

Wall switches

Match plate finish, rating and mounting.

COMPLETE THE SCHEDULE

Include PVC conduit, junction boxes, sockets and supports. State dimensions and material.

PRODUCT PORTFOLIO / 04

Industrial power connections

Local isolation and industrial connection products selected to the duty.

Schneider Kavacha WHD20

Named model reference for enquiries.

SCAME 590.HGE10005

Named switch-disconnector reference.

Industrial female connector

Illustrative industrial connector type.

Industrial male-contact inlet

Illustrative industrial inlet type.

MATCH BOTH SIDES OF THE CONNECTION

Confirm current, voltage, poles, clock position, IP rating, mounting and mating connector.

PRODUCT PORTFOLIO / 05

Distribution & control

Circuit devices, enclosures, control accessories and earthing connections.

Miniature circuit breakers

Select ratings to the approved circuit design.

Enclosures & board housings

Material, dimensions and mounting to schedule.

Rotary selector switches

Panel-mounted operator controls.

Earthing accessories

Conductors, clamps and connection fittings.

ADDITIONAL ENQUIRIES

RCCBs, RCBOs, MCCBs, contactors, timers and meters. Confirm exact ratings and model references.

PRODUCT PORTFOLIO / 06

Light for interior spaces

A selection of luminaires for ceilings, rooms and circulation areas.

Recessed downlight

Recessed luminaire example.

Compact downlight

Check cut-out and installation depth.

Square panel light

Specify dimensions and mounting.

Linear luminaire

Continuous or individual lighting layouts.

DEFINE THE LIGHTING REQUIREMENT

Wattage, lumens, colour temperature, CRI, beam angle, driver, dimming and mounting details.

PRODUCT PORTFOLIO / 07

Lighting beyond the interior

Outdoor, industrial and emergency lighting product families.

UFO high-bay light

Industrial and high-ceiling lighting.

Street-light fixtures

External roadway and area lighting enquiries.

Emergency luminaires

Confirm duration and operating mode.

Illuminated EXIT sign

Match legend, viewing distance and mounting.

ALSO EXPLORE

Landscape spike lights, wall lights and solar lighting by model. Confirm outdoor protection ratings.

PRODUCT PORTFOLIO / 08

Comfort & useful control

Fan and sensor options for building-service enquiries.

Ceiling fan

Room air circulation product example.

Axial ventilation fan

Ventilation selected to the application.

Fan assortment

Wall, pedestal and ventilation options.

Recessed PIR sensor

Occupancy detection product example.

SELECTION DETAILS

Airflow, duct size, noise, mounting and supply voltage; sensor coverage and load compatibility.

PRODUCT REFERENCES

Your preferred brands.

Name the manufacturer, range and model when you request a quotation.

Schneider Electric

Isolation, circuit protection, motor control and metering.

SCAME

Industrial connectors and switch-disconnectors.

GEWISS

Industrial sockets, enclosures and distribution systems.

RFQ

Himel

Circuit protection, wiring devices and control components.

RFQ

PCE / PC Electric

CEE plugs, sockets and industrial connection systems.

RFQ

Brand references identify product enquiry options and do not imply authorised dealership. Photographs illustrate named models or product types; exact stock, specification and delivery are confirmed in the quotation.

A PRACTICAL BUYING PROCESS

From material list to a clear quotation.

01

Share the requirement

Send your BOQ, quantities, drawings and preferred model references.

02

Confirm the specification

Include ratings, dimensions, finish, application and project approvals.

03

Review the offer

Check proposed products, quantities, availability and commercial terms.

04

Agree the order details

Confirm the scope, delivery location and required date before ordering.

MAKE YOUR ENQUIRY EASY TO REVIEW

Item description / Brand & model / Rating & size
Quantity / Delivery location / Required date
